Donating to Community Ministry Using your King Soopers SooperCard

As of April 1, King Soopers (KS) has discontinued their charitable giving program that used the reloadable gift cards and created a comparable program attached to the regular King Soopers SooperCard. What follows is a step-by-step guide how to sign up so that Community Ministry will automatically benefit whenever you use your SooperCard. You will need to get access to a computer/phone connected to the internet in order to enroll. You only need it to get enrolled this once, so you can use a library or friend’s computer. You will need to have a KS SooperCard and an email address to sign up.

1. Open the computer/device’s internet browser (Internet Explorer, Safari, Firefox, Chrome,...). The pictures below are from a Chrome browser on Windows. For mobile phones, the screens will look different because of the smaller screen size.

2. In the search/URL bar type “kingsoopers.com” and press the “Enter” key

3. If you already have an account established at kingsoopers.com, skip to step 13 below.

4. Since you don’t yet have account, and assuming you have a King Soopers Awards card, you will need to first create an account that links to your card. On the KS home page in the upper right hover over the “Welcome Sign In” until a box drops down and click on “Sign In”.

5. [Instructions and images are provided here, likely showing how to sign up for the program.]
5. We will come back to this page after we create our account, but for now, click on the blue text, "Create an account".
6. Enter your (or your store’s) zip code in the “Your Location” box and click on the “Find” button.

7. Click in the “Select Store” box and click on your desired store location (click on the scroll bar and drag it up/down to view more options).

8. In each of the boxes in square 2, fill in the appropriate information:
a. Email Address and Confirm Email Address: this should be your valid email address (KS may send notifications to this email)

b. Password: this is what you want the password to your new KS account to be. It is wise to make this 8 characters or more consisting of a combination of uppercase letters, lower case letters, numbers and special characters like “! @, $, %, ^, &, *!, (, ), _, =, +” in order to be reasonably secure. Write it down or save it somewhere so that you do not forget it!

c. First Name, Last Name: your names

9. In square 3 in the “SooperCard # or Alt ID” enter your SooperCard number. If you already use your phone number at KS for rewards, enter it without punctuation. If you would rather use your phone number, click on the blue text “Or, Create Your Alt ID Online” to establish your phone number as an alternate ID. However, it is best to use your SooperCard number if you have it (and it works).

10. Review the boxes that have the green checkmarks. You will likely want to click on each to remove the checkmarks unless you agree to get promotion emails from KS and want them to track your activity on their websites.

11. Before you click on the “Create Account” button, you may want to review KS’s Terms and Conditions and Privacy and Security policies. To do so without loosing the information on the
page, Ctrl-click (hold down the Ctrl key while left clicking the mouse) on each of the blue text for these policies. This will launch the pages for these policies in new tabs on which you can click to see them and then return to the original tab. On a Mac computer use Cmd-click to accomplish this.

12. Click on the “Create Account” button to complete the account creation.

13. Scroll back to the top of the page and in the upper right corner, again hover over the “Welcome Sign In” until a box drops down and click on “Sign In”. (same as step 4)

14. Enter your email address (the one you used previously to create your account), and your Password and then click the “Sign In” button. (see picture in step 5)

15. From the menu at the top of the page, hover over “Savings & Rewards” and from the dropdown click on the bottom entry, “King Soopers Community Rewards”.

By creating an account, you agree to our Terms and Conditions and our Privacy and Security policies.
16. Click on the blue text “Enroll Now”

17. In the box for selecting a non-profit to benefit, enter Community Ministry’s number, “HP613” and press the “Search” button. You should see Community Ministry as the only search result.
Click on the “Enroll” button.

18. Scroll to the top again and hover over the “Hi <name> My Account” and click on “Sign Out” in the drop down.

19. If you are on a borrowed computer, at the very top of the browser, click on the “X” next to the King Soopers tab to close the browser window to ensure any saved window information is removed.
